

Advanced Content Management features

Social Publishing

Removed in version 5.0!

The screenshot displays the 'Admin Console' interface. A sidebar on the left lists 'Tools' including Application, Category Manager, Node Browser, Tag Manager, Content Publishing, and Channel Manager. The main area is titled 'Channel Manager' and shows three channel cards: 'Martin's Slides' (with a presentation icon), 'Martin' (with a Facebook icon), and 'Gravitonian' (with a Twitter icon). Each card has links for 'Permissions', 'Reauthorize', and 'Delete'. An arrow points from the 'Permissions' link of the 'Martin's Slides' card to a detailed permissions view on the right.
